2024 Texas Angus Association Internship Program

The Texas Angus Association office is offering a summer internship designed to enhance a student's abilities and knowledge of the administration side of a breed association, communication skills and learn about the Angus breed and cattle industry. From assisting in coordinating educational events for members, to helping selling ads and producing issues of Texas Angus News, to spearheading new projects the intern will receive hands-on experience of how a breed association works. Applicants should have a basic understanding of the cattle industry, be a self-starter and be able to work remotely and travel occasionally.

We are accepting applications from college students studying, animal science, agriculture communications, agribusiness, agricultural leadership or other agricultural-related majors. Applicants must be motivated, outgoing, able to work under little supervision and have integrity.

The internship begins in June and extends through mid-August. The intern is expected to work remotely and be able to travel to College Station and other areas of Texas for events during the summer. The intern will also need to have a reliable computer and phone to conduct business. Specific start and end dates will be negotiated depending on the intern's availability. The intern will be expected to travel, and some weekend work may be required.

Responsibilities:

- Assist association staff in coordinating educational events for members
- Aide in securing advertising for Texas Angus News the official publication of the TAA
- Assist in coordinating editorial content and editing issues of Texas Angus News
- Communicating to members and producers through multiple communications channels
- Work with other board members and committee chairmen on committee projects
- Promote the Angus Breed and represent the Texas Angus Association at events
- Other duties as assigned

Qualifications of Intern:

- Livestock or agricultural background preferred
- Photography or graphic design skills a plus
- Must have a working computer and cell phone

- Must have interest in working in agricultural related field after college
- Self-motivated, professional, detail-oriented, outgoing and energetic
- Computer skills including Microsoft Office programs.
- Communication, Marketing and/or Public Relations skill preferred

Interns will be paid for their time and effort and be reimbursed for their travel. Students can also receive college credit with advisor approval. To apply, please send: cover letter, resume and at least three references to taa@texasangus.com and CC kaydee@texasangus.com. Cover letters can be addressed to Kaydee Free.
